Are you a Patient Healthcare Professional

How useful did you find OPIS

Further Feedback? please click [Here](#) if you can help with futher feedback

Did you think OPIS was user friendly with regards to The presentation of results i.e. the graph with supporting text?

* A complete cycle includes all fresh and frozen-thawed embryo transfers resulting from one egg collection.

**Your chance of having your first baby after 1 complete cycle of treatment is: 41.23%. This means that out of 100 couples having 1 cycle, approximately 41 would have a baby.
